

Specialized Welding ^{is now} **LESS EXPENSIVE, CLEANER, FASTER & MORE CONSISTENT**

With Hercules' New **PLS120** Automated Longitudinal & Circumferential Seam Weld System

Let Hercules handle your welding, and have it done quickly and consistently every time.

Hercules continues to invest in the latest advancements in welding technology.

We are pleased to announce our new state-of-the-art **PLS120 Automatic Welding System** at our Commercial Division in Denver, CO. Hercules can provide quality welded products with quick turnaround, at a competitive price.

BENEFITS for YOU:

Save **TIME**:

- Eliminate the need for costly grinding and cleaning of your welds. With Hercules' PLS120, it's all done automatically. The result is a strong, smooth, clean seam, every time.
- Hercules delivers fast turn-around times.

Save **MONEY**:

- Hercules delivers a welded product that is consistently smooth, strong, and ready for use. This means direct SAVINGS for you.
- Save on labor costs: with our circumferential welding capabilities, Hercules can shop-manifold pipe to the project requirements. Not only is it convenient for you to have Hercules provide specialized welding solutions, it's cost effective.
- Save on project time: you get the exact product you need, ready for use. Hercules can deliver factory installed angle rings for easy field installation.

The PLS120 Seam Weld System is extremely versatile, able to handle virtually any aspect of specialized welding.

Applications include:

- Exhaust stacks
- Dust collection systems
- Grease duct
- Vacuum systems
- Laundry / linen chutes
- Waste / recyclable material chutes
- Fully welded venting systems
- Vehicle exhaust systems
- Welded sleeves - various lengths
- Large welding projects

The PLS120 features a 10' longitudinal seam capacity, and includes gas back-up inserts for purging.

With both **MIG** and **TIG** welding capabilities, the automatic welder can work with materials including, but not limited to:

- Galvanized Steel • Stainless Steel
- Black Iron • Aluminum • Paint Lock

Call Hercules Industries today, we would be happy to provide an estimate on your project. Let us show you how quick, easy and inexpensive specialized welding solutions can be!
