VETO PRO PAC'S DNA

INTENTION

Function oriented design with feature rich solutions for smarter work performance

WORKMANSHIP

Well-made, quality infused products, hand made by skilled craftspeople

MATERIALS

Professional-grade specifications built with time-tested materials

APPEARANCE

Timeless, rugged aesthetic, developed for endurance and dependability

VETO PRO PAC'S QUALITY DIFFERENCE

YKK INTERLOCKING ZIPPERS

Premium luggage grade coils, engineered for longevity in the field

RUGGED CONSTRUCTION

Industrial strength materials, reinforced construction, nylon stitching & marine grade rivets

REINFORCED IN & OUT

Interior & exterior pockets constructed using multiple layers of binding tape and webbing for structure and durability

STABLE WATERPROOF BASE

3mm thick polypropylene base offers wear and moisture protection during everyday conditions

ERGONOMIC DESIGN

Comfortable, over-molded rubber grip offering positive hand control and connection

MAXIMIZED STORAGE CAPACITY

Patented center panel for optimized weight distribution while supporting vertical tiered pockets keeping all contents in view

ADAPTABILITY

Detachable & customizable features can be made to work the way you do (V-SWAP is only available on certain V-SWAP labeled bags)

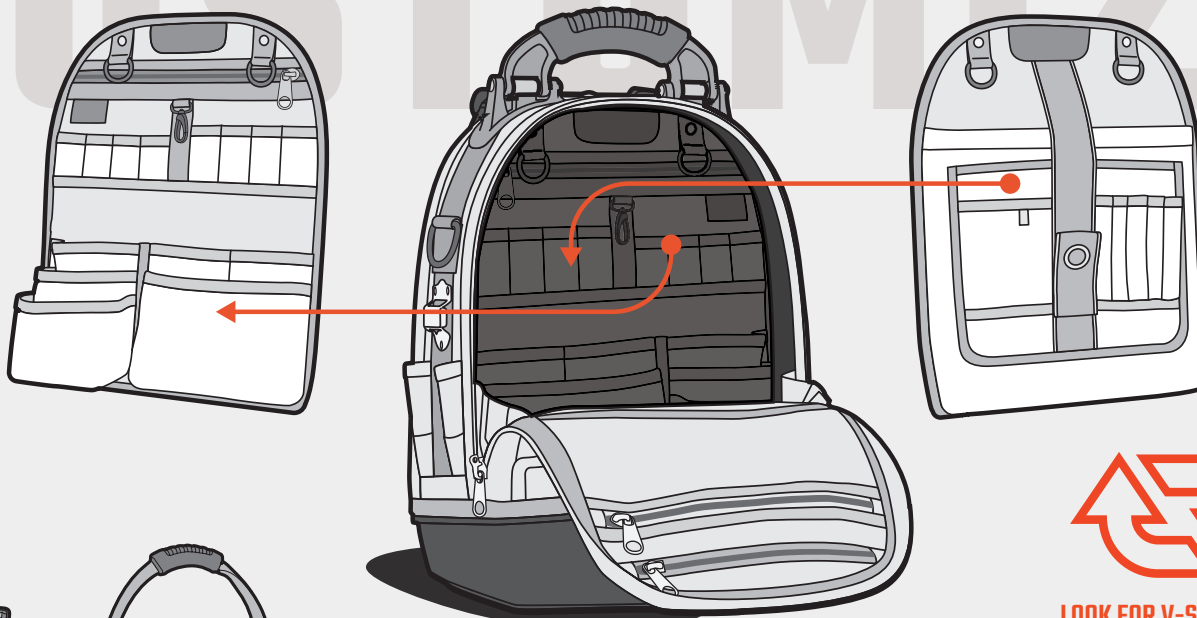

V-SWAP™

RECONFIGURE & CUSTOMIZE QUICKLY

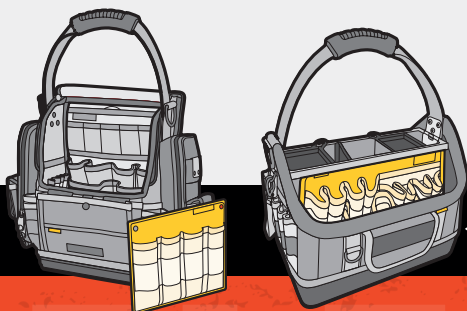

Veto Pro Pac's proprietary V-SWAP™ system enables quick customization for the needed tools, gear and equipment. Available on the Blackout and Build-Out products, the TECH OT-LC and TP-XXL, the Wheelers, as well as a number of new products we are introducing this year.

CUSTOMIZE

"I've been using the laptop sleeve mostly to keep it safe and protected, but I kept the tool panel as well and use it as a back seat organizer! On some jobs I'll even pull it off the seat and drop it in front of the laptop sleeve to increase storage capacity, effectively doubling my specialty tool storage on some jobs."

Chris Davis - Member
Lower 48 Instruments

V-SWAP PANELS

Veto Pro Pac's proprietary V-SWAP™ system enables quick customization of our Blackout, Build-Out, Wheeler bags, the TECH OT-LC and other new products. With multiple removable and replaceable panels, you can reconfigure and customize your Veto Pro Pac tool bag quickly with the flexibility to position each panel where it can be most effective and accessible throughout the workday. **To see our expanding selection of panels by product, visit www.vetopropac.com/v-swap**

TOOL & METER PANELS

Tool & Meter Panels are swappable tool & equipment storage organization components. These panels provide a number of pockets for safely storing tools & technology required on the job site. Typically Tool & Meter Panels feature soft neoprene pockets to gently store and protect precision meters or expand to secure a number of small tools.

LAPTOP PANELS

Laptop and tablet panels are swappable gear storage and organization components. These V-SWAP™ pocket panel options provide a number of pockets for safely storing tools & technology required on the job site, including most tablets and laptops with screen sizes up to 17 inches (depending on bag size).

BULK STORAGE PANELS

Bulk Storage Panels enable the storing of large items like cases, power tools or small tool pouches securely. This V-SWAP™ pocket panel option provides a soft yet rugged surface for absorbing small impacts, but is easily removed from bag for wiping the panel clean.

ADDITIONAL PANELS & INSERTS

An increasing amount of our bags integrate the V-SWAP™ system. This system not only enables the removal of panels, to accommodate bulkier gear, but alternative panel configurations or inserts are available for personalized setups or for storing job-specific tools in the van or closer to the job site.

INTRODUCING

BUILD-OUT BAGS

Our new Build-Out bags allow customization of your tool bag's tool, gear and equipment storage areas using Veto Pro Pac's proprietary V-SWAP™ system. With several V-SWAP™ removable and exchangeable pocket panel options to choose from, a variety of panel configurations can be 'built out' on the fly. To purchase a Build-Out bag you must choose a minimum of any 2 panels. However, you can buy additional V-SWAP™ panels at the time of purchase or any time because the panels are removable and swappable on the front and back. Having multiple panels for storing task-specific tools can increase on-the-job flexibility and efficiency.

Discover the Build-Out bags at www.vetopropac.com/build-out.

1

CHOOSE YOUR BAG

Choose from 3 Build-Out bags including:

- TECH PAC BLACKOUT BUILD-OUT
- TECH PAC MC BLACKOUT BUILD-OUT
- TECH-MCT BLACKOUT BUILD-OUT

2

CHOOSE YOUR PANELS

Choose a minimum of 2 panels from our V-SWAP™ collection. All Build-out bags offer tool, meter, laptop/tablet, and bulk storage panels. In 2022, we introduced 3 additional V-SWAP™ panels designed exclusively for the TECH PAC BLACKOUT and TECH PAC BLACKOUT BUILD-OUT (see page 10).

ROB ROBERTS

CHICAGO, IL

YOU CAN'T RUSH EXPERIENCE.

**ROB ROBERTS | CHICAGO, IL
HVAC FIELD SUPERVISOR**

I am an HVAC Field Supervisor and I've been in the trade for 30+ years. I started in this field just from talking to older guys about the industry and the rest is history. I've done everything from installing commercial steam boilers on a daily basis down to servicing a residential AC. I've had a very well rounded experience in this industry. I love my trade because there is always a challenge. I found Veto Pro Pac back around 2006-2007 or so after seeing a Refrigeration Tech on a jobsite with one. You could only purchase the bags online directly from Veto. I needed a bag that would last, and Veto did and does just that. All of my Veto bags are used for my daily service work. Most are job specific. The hand tool storage options are a major draw for me.

BRIAN SILVA

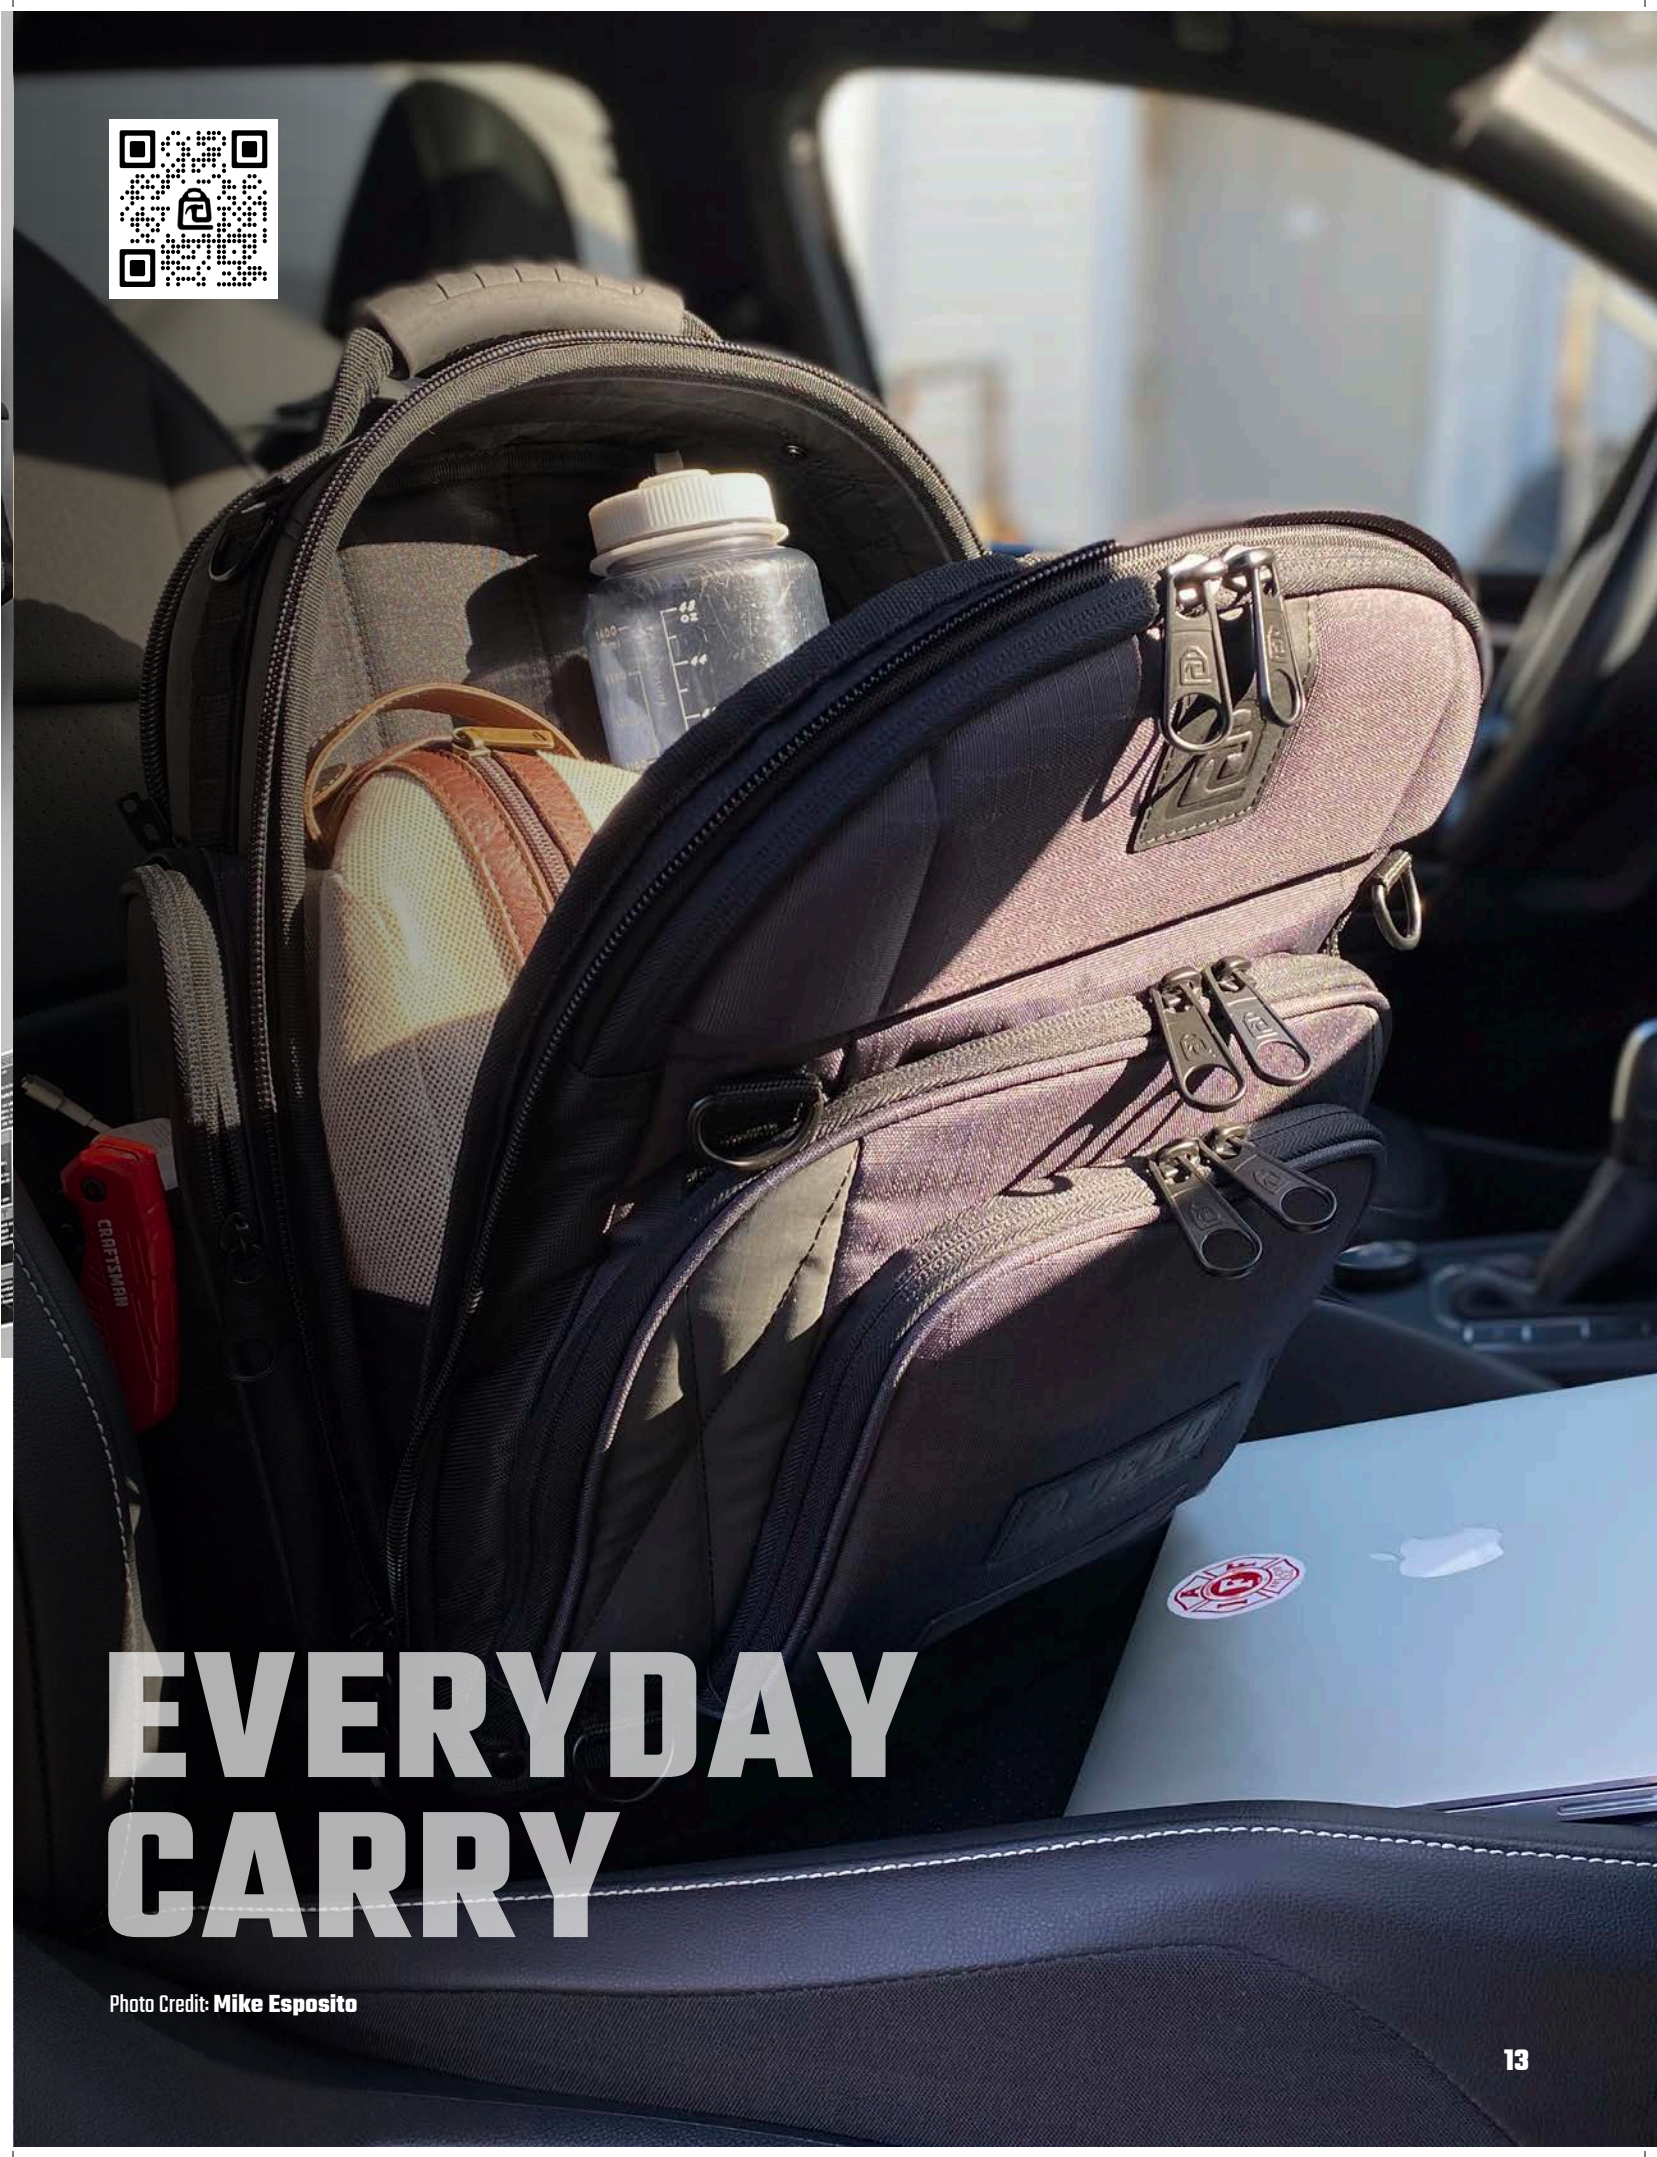

LOVE WHAT YOU DO, AND YOU'LL NEVER WORK A DAY IN YOUR LIFE.

**BRIAN SILVA | ONTARIO, CANADA
AIR CONDITIONING & REFRIGERATION SYSTEMS MECHANIC**

Air Conditioning and Refrigeration Systems Mechanic by trade. This journey began in 2007 where I attended a 3 year Air Conditioning and Refrigeration Technology program at Humber College in Toronto. I was hired by the company Northern Air Environmental Technologies 2 weeks before I finished my college program. I have now been working for this great company 11 years now. I am a service technician that typically looks after commercial HVAC equipment including small refrigeration in both the food and process industries. I love everything about this trade, the fact it is very multi-faceted in that I get to work on the electrical, plumbing and even rigging side of this trade. I have always had a constant thirst for knowledge and feel as though Refrigeration constantly challenges me in many different ways.

EVERYDAY CARRY

LBC-10 NEW

13" H X 15" W X 12" D | WT: 7 LBS | VOL: 620 IN³ | MAX PAYLOAD: 25 LBS
(33cm H X 38cm WL X 30.5cm D) (3 KG) (10 L) (11 KG)

Veto's lunchbox-sized cooler safely keeps the critical items that power your day. The hybrid design melds the functional appearance of a soft-sided lunchbag with the performance of a hard-sided cooler. Secured via magnetic latch, the zipperless lid can be easily opened with one hand when on the road. Both the LBC-10 and LBC-15 offer significant internal volume insulated by 1 1/2.5cm of rigid, expanded polypropylene foam. The injection molded polypropylene plastic liner is easily removed for rinsing out spilled liquids. An included interior tray keeps small items and cutlery separate and accessible, can be slid left or right, or can be removed to accommodate larger meal items. The bag exterior features a zippered front pocket for storing everyday carry needs. Additional features include an over-molded elastomeric/polypropylene waterproof LC base and a reflective band around the perimeter. Available in Carbon or Olive colors.

LBC-15 NEW

15.5" H X 17" W X 13" D | **WT: 9 LBS** | **VOL: 925 IN³** | **MAX PAYLOAD: 30 LBS**
(39.5cm H X 43 WL X 33cm D) (4 KG) (15 L) (14 KG)

The larger LBC-15 lunchbox-sized cooler provides an additional 305in³ / 5 liters of non-insulated storage within the lid. Unzip either side of the lid to slide out an injection molded plastic storage drawer; or remove completely to use as food tray. The LBC-15 also includes 6 additional exterior everyday carry storage pockets around the perimeter of the bag, including a pocket perfect for an eReader or small tablet computer. Available in Carbon or Olive colors.

EDC PAC LCB

NEW

19.5" H X 16" W X 10" D | **WT: 6.5 LBS** | **VOL: 1680 IN³** | **MAX PAYLOAD: 35 LBS**
(49.5cm H X 40.5cm W X 25.5cm D) (3 KG) (27.5 L) (16 KG)

Designed as an everyday carry backpack, the EDC PAC LCB inherits its D.N.A. from Veto Pro Pac's always dependable TECH PAC backpack tool bag. Just like the TECH PAC, the EDC PAC LCB is built with durability and stability in mind. A waterproof injection molded polypropylene base and unyielding body structure provides an upright posture like its tool bag brethren. Up front, in place of the typical interior tool pockets, is a vast open compartment perfect for packing a weekend's worth of supplies & gear. A separate semi-rigid zippered compartment at the top is designed for protecting sun glasses or safety glasses. Two additional zippered front pockets offer several organizational compartments for technology or personal items. In the back is a dedicated 15" laptop compartment with padded tablet sleeve. Large zippered side pockets expand to accommodate large water bottles or can remain zipped tight for securing daily needs. Finally, like all Veto bags the EDC PAC LCB features a familiar solidly attached haul handle to confidently grab when it's time to bug out.

TECH PAC

19.5" H X 13" W X 10" D | **WT: 10 LBS** | **VOL: 1550 IN³** | **MAX PAYLOAD: 50 LBS**
 (49.5cm H X 33cm W X 25cm D) (4.5 KG) (25 L) (23 KG)

The TECH PAC is the first backpack tool bag designed specifically for professional tradesmen who need to climb ladders or walk long distances. The bag includes Veto's patented center panel, rugged construction, and stabilizing injection molded waterproof base to keep tools dry even in the worst conditions. With 46 pockets inside and out, the TECH PAC offers ample room for hand tools, meters, parts boxes, cordless drills and impact drivers, as well as other bulkier items such as manifold gauges, hoses, cable wires and even a 7" X 10" pocket for a tablet or small laptop. With a thermo-formed EVA padded back panel, padded load-displacing adjustable shoulder strap system, and an ergonomic TPR rubber grip, this favorite is also made for comfort.

TECH PAC LT

19.5" H X 13" W X 8" D | **WT: 10 LBS** | **VOL: 1550 IN³** | **MAX PAYLOAD: 45 LBS**
 (49.5cm H X 33cm W X 20cm D) (4.5 KG) (25 L) (20 KG)

The TECH PAC LT is the ultimate laptop backpack tool bag designed for professional service technicians who need to walk long distances or climb ladders or stairs. It can store up to a 15" laptop (15"x10"x1.5" is the max) and offers a stable, non-tipping platform that features dual bays with tool storage on the front inside bay, and laptop, tablet and office supplies storage on the back inside bay. With 36 pockets inside and out, this backpack tool bag has ample room for hand tools, cable wires, a laptop, tablet, business accessories and more. The TECH PAC LT also features our patented center panel, heavy-duty construction and a stabilizing injection molded waterproof base, along with thermo-formed EVA padded back panel, padded load-displacing adjustable shoulder strap system, and an ergonomic TPR rubber grip.

TECH-LC

13.5" H X 13.5" W X 9.5" D (34cm H X 34cm W X 24cm D)

WT: 6 LBS (3 KG)

VOL: 1080 IN³ (18 L)

MAX PAYLOAD: 35 LBS (16 KG)

Designed to accommodate technicians' tools and work routines, this weatherproof, large-sized service technician's tool bag organizes, stores and protects hand tools and meters, making service calls or system installs quicker and more efficient. The TECH-LC tool bag sports 53 pockets with ample room for hand tools, parts box(es), meter(s), a cordless impact drill and other bulkier items.

TECH-XL

15" H X 16.5" W X 9.5" D (38cm H X 42cm W X 24cm D)

WT: 8.5 LBS (4 KG)

VOL: 1660 IN³ (27 L)

MAX PAYLOAD: 45 LBS (20 KG)

Built for work and built to last, this is the service technician's version of the award-winning XL tool bag. The TECH-XL features 80 pockets and plenty of space for hand tools, parts boxes, meters, a cordless impact drill and other bulkier items. 9 small neoprene pockets have been added for drill bits and bit extensions. A bag that holds a payload, with fingertip tool access and maximum tool storage.

XLT

TECH-TT

13" H X 16.5" W X 7" D | **WT: 7 LBS** | **VOL: 1450 IN³** | **MAX PAYLOAD: 40 LBS**
(33cm H X 42cm W X 18cm D) (3 KG) (24 L) (18 KG)

The TECH-TT provides two exterior 'shop walls' of tool storage along with open access to all interior tool pockets – keeping gear visible and accessible. Built on a waterproof plastic base the TECH-TT is designed for any tradesperson or technician to quickly store hand tools in vertical pockets as well as larger tools in the center bulk storage section of the bag. The two removable V-SWAP™ pocket panels enable customizing the interior for creating more or less bulk storage capacity. A tape measure, small driver or Veto pouch can attach to the stainless mounting clip.

JASON GUEVARRA

DEDEDO, GUAM

EVERY JOB IS A SELF-PORTRAIT OF THE PERSON WHO DOES IT, AUTOGRAPH YOUR WORK WITH EXCELLENCE.

**JASON GUEVARRA | DEDEDO, GUAM
HVAC TECHNICIAN**

I work in the HVAC industry and I started out as an apprentice for my godfather about four years ago. I was studying to be a civil engineer and I was only working part time. A couple of years went by and I lost interest in civil engineering, and I found joy in the work I do. So I decided to be full time. I found joy and excitement in the HVAC field and decided that this is what I like to do. What I like about my trade is the idea of fixing things and installing, making things run. I also like problem solving in my trade. There are many obstacles and challenges that may prove to be impossible, but with a little time and patience it can be solved.

THYMIO KONOMI

I'VE BEEN IN VARIOUS TRADES FOR 17 YEARS. I LOVE PROBLEM SOLVING AND WORKING WITH MY HANDS. SINCE SWITCHING TO VETO AS MY TOOL STORAGE SOLUTION, IT HAS MADE ME MUCH MORE ORGANIZED, EFFICIENT AND HAPPY AT WORK.

**THYMIO KONOMI | LONDON, UK
ELECTRICIAN**

I am originally from Greece but I live in the UK and I have 6 years of experience in the electrical trade. I was introduced to the trade through one of my friends and I fell in love with it straight away. The satisfaction of standing back and admiring the work we do once we are finished is one of the best feelings. As I was growing my business, the amount of tools in my repertoire grew with it, so I had to find some way to organize them. I came across some other electricians who used Veto bags and they looked perfect for what I needed. Since I purchased some of my own, I've never looked back. They have made my life so much easier. The impression they make on the clients when we turn up to a job with clean tools in a neat bag is crucial. It ensures they feel comfortable having you do work at their houses as they realize they'll be in good hands!

Veto Pro Pac's Special Ops kits are distinguished by extra versatility and a Hi-Viz color scheme. The CP4 SPECIAL OPS is a multi-purpose tool pouch that can hold a variety of small tools and accessories for service, repair or installation jobs and is also a perfect weekend travel pouch for small items.

Includes 2 exclusive zippered parts bags

PARTS BAGS & CASES

These small bags work as handy, color-coded zip-up pacs that allow compact, secure organization and storage of small tools and various items that can easily be identified by the color coded webbing and see-through vinyl coated mesh panel, helping with staying on top of loose odds and ends in the truck, shop, or on the job. If the color coding is not working, there's always the handy Sharpie to break out and, write and identify on the color-coded webbing!

MAX PAYLOAD: 5 LBS (2.5 KG)

Easy to spot, easy to find and easy to fit inside or hang on the outside of a tool bag. This Hi-Viz Yellow pair of PB5-sized parts bags allow compact and secure organization and storage of small parts, test leads or precision tools. A transparent vinyl-coated mesh side also makes for easy identification of the contents!

PB2-8 MAG

5" H X 9" W X .5" D (12.5cm H X 22cm W X 1cm D)

WT: .2 LBS (.1 KG)

VOL: 18 IN³ (.5 L)

MAX PAYLOAD: 5 LBS (2.5 KG)

A string of magnets added along the back of this pair of 8"/20cm long parts bags adds a surprising amount of functionality. Not only do the magnets enable the pair to secure to one another, each magnetized pouch can attach to the ferrous mounting point integrated in the TP-XXL, TP-XD & TP-XL. When on the go the pouches can secure themselves to a substructure keeping small parts, test leads or precision tools within hand's reach. The magnets can also temporarily keep the screws from a removed shroud in place.

The MB3B is a taller and wider version of our MB2 with an injection molded base that can accommodate and protect up to 4 meters and store a tablet. It is our largest meter bag with 14" of vertical storage space. The MB3B has a pull-out insert that has Velcro partitions to allow separate spaces for meter or hand tools and has locking heavy-duty zippers. This bag also fits electronic leak detectors and leak detection products (dyes, sealants, and UV torches). It works overtime to make service calls quick and efficient.

MB5B Tool Bag Configuration

15" H X 15" W X 10" D | **WT: 9 LBS** | **VOL: 840 IN³** | **MAX PAYLOAD: 45 LBS**
 (38cm H X 38cm W X 25.5cm D) (4 KG) (14 L) (20KG)

The MB5B is an extra large and highly-configurable front accessed meter bag. Once the bag is loaded out, it can be worn over both shoulders using the included backpack straps, over a single shoulder using the optional padded shoulder strap, or at your side with over-molded gripped handle. Finally, the bag features an additional 8 pockets on the front flap as well as a padded tablet computer pocket on the back.

The MB5B is offered in two configurations: one for technicians in the United States and one for technicians in the UK, Europe and the rest of the international professional trade community. The United States version shown here has been configured for storing a variety of hand tools inside the bag while separately storing 1-2 clamp meters in the 2 padded side mounted zippered pockets.

MB4B **NEW**

17" H X 15" W X 8" D | **WT: 4.5 LBS** | **VOL: 540 IN³** | **MAX PAYLOAD: 40 LBS**
(43cm H X 38cm W X 20.5cm D) (2 KG) (9 L) (18 KG)

The MB4B is a unique and versatile vertically oriented tool carrying solution. Designed for efficiency the MB4B's gate mouth style zippered-opening enables quick & unencumbered access to the inside of the bag. Wear the MB4B over both shoulders using the included backpack straps, over a single shoulder via the optional padded shoulder strap, or at your side with the leather-gripped handles. The divider inside the removable padded insert box can be repositioned to secure and separate a meter from other tools; three internal pockets enable further partitioning of tools. Finally the bag features 11 exterior pockets on the side and front as well as a padded tablet computer pocket on the back.

SARA BENOY

THERE'S NO SUCH THING AS TOO MANY TOOLS.

**SARA BENOY | MINNESOTA, USA
HVAC TECHNICIAN**

I work in the commercial HVAC/R field as a Service Technician. After going to traditional college, I realized that I didn't enjoy sitting at a computer in a cubicle and always enjoyed working with my hands. After researching the different trades, I liked the fact that HVAC included a little bit of each of the trades. I went on a ride-along with a technician and was hooked! I love the fact that there is always something new to learn and challenge you in the field. You can think that you've seen it all but there is always something to troubleshoot and figure out.

WRENCHER-MC

15" H X 11" W X 12" D (38cm H X 28cm W X 30.5cm D)

WT: 4.5 LBS (2 KG)

VOL: 1120 IN³ (18 L)

MAX PAYLOAD: 60 LBS (27 KG)

The WRENCHER-MC is designed for plumbers with a variety of customizable vertical storage pockets that can be oriented for large pipe wrenches, channel locks or small hand tools. This bag has a water repelling tarpaulin interior and an injection molded polypropylene waterproof base. along with two V-SWAP™ panels of vertical pockets to accommodate a variety of hand tools, equipment or bulk storage when removed. This WRENCHER-MC offers multiple storage options in a rugged platform.

WRENCHER-LC

16" H X 14" W X 13" D (40.5cm H X 35.5cm W X 33cm D)

WT: 10 LBS (4.5 KG)

VOL: 1760 IN³ (29 L)

MAX PAYLOAD: 70 LBS (32 KG)

The WRENCHER-LC is a large-sized open top plumbing bag. Both the WRENCHER-LC and larger WRENCHER-XL share the same vertical drop zones. Included is a compact zippered pouch that can be removed, stuffed, and magnetically secured into a rear pants pocket, over a belt or propped-up and kept within hand's-reach. The two V-SWAP™ panels can be removed to create additional interior volume for bulk storage or transporting power tools. All WRENCHER bags feature a water-repelling tarpaulin interior for easy clean up, and an injection molded waterproof base.

WRENCHER-XL

17" H X 17" W X 13" D | **WT: 13 LBS** | **VOL: 2280 IN³** | **MAX PAYLOAD: 80 LBS**
(43cm H X 43cm W X 33cm D) (6 KG) (37 L) (36 KG)

The WRENCHER-XL is an extra-large sized open top plumbing bag, which features four vertical storage zones for large pipe wrenches and channel locks. One or both interior V-SWAP™ pocket panels can be removed creating additional space for bulky tools or large fittings. Included is a compact zippered pouch that can be removed, stuffed and magnetically secured into a rear pants pocket, over a belt, or proposed up and kept within hand's-reach. All WRENCHER bags feature a water-repelling tarpaulin interior for easy clean up, and an injection molded waterproof base.

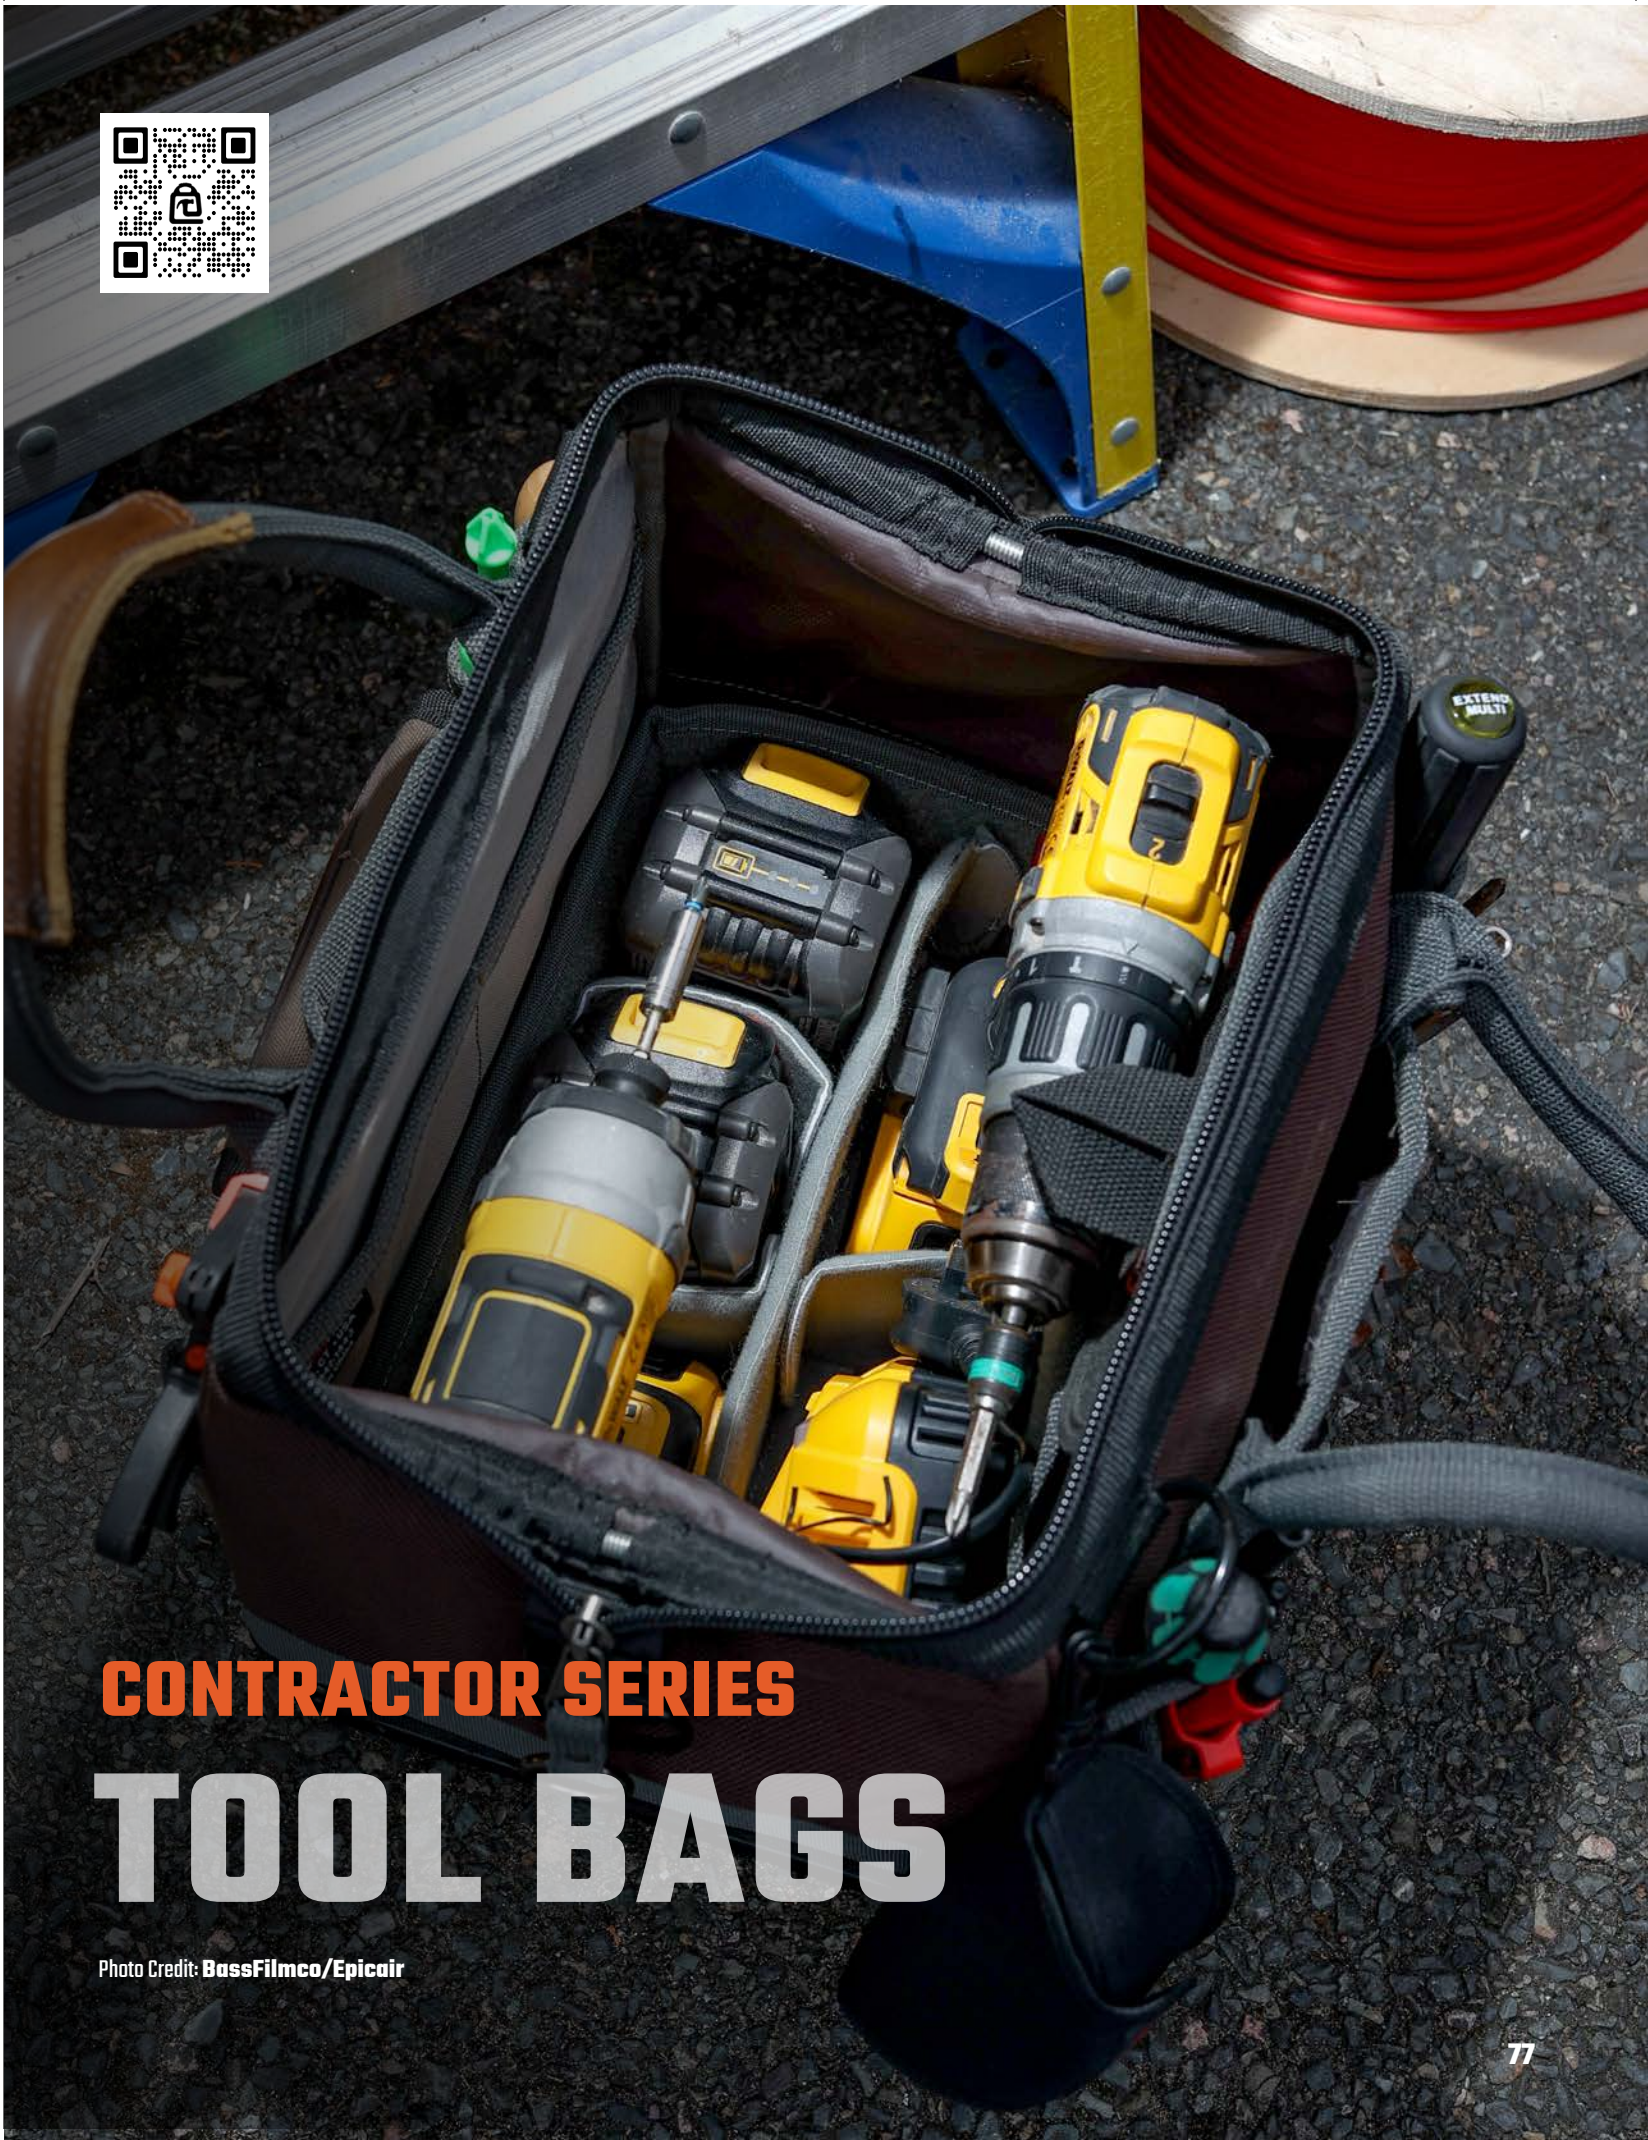

WRENCHER-XXL

13" H X 26" W X 10.5" D | **WT: 8 LBS** | **VOL: 1980 IN³** | **MAX PAYLOAD: 60 LBS**
(33cm H X 66cm W X 26.5cm D) (3.5 KG) (32.5 L) (27 KG)

The horizontal orientation of the WRENCHER-XXL is ideal when tools are long but you may not have space for a very tall bag in your van, work space or storage space. Numerous small vertical pockets, perfect for small hand tools, populate the exterior of the bag. On the interior a removable padded tray is perfect for containing several water specimen bottles, long hand tools or a few power tools. The bag is securely riveted to an injection molded waterproof polypropylene base perfect for setting down on damp basement floor or dragging through a muddy crawl.

XXL-F

10" H X 26" W X 10" D | **WT: 10 LBS** | **VOL: 1485 IN³** | **MAX PAYLOAD: 50 LBS**
(25cm H X 66cm W X 25cm D) (4.5 KG) (24 L) (23 KG)

The XXL-F is a soft-sided version of the classic "carpenter's wooden tool box." The XXL-F can store larger and longer tools (hand saws, framing squares, pry bars, etc.) in the bulk storage side and smaller hand tools on opposite side in the vertically tiered pockets. This bag holds it all!

Now you can pack that serrated hand saw sidekick, or a level, or a pry bar, or anything else that requires a little more horizontal territory. The XXL-F handles longer tools while still providing vertical storage in the form of 54 pockets that can accommodate about 80 tools of varying sizes.

OT-XL

13" H X 18" W X 11.5" D | **WT: 9 LBS** | **VOL: 1350 IN³** | **MAX PAYLOAD: 50 LBS**
(32cm H X 46cm W X 29cm D) (4 KG) (22 L) (23 KG)

This is the open-top version of the award-winning XL tool bag, featuring the same sturdy construction and ergonomic features, but offering internal vertical pockets and open spaces to store larger punch list items. This grab-and-go bag offers quick open-top accessibility and convenient tool storage to travel from the truck to the job site.

LEATHER BOUND OPENING

ERGONOMIC OVERMOLDED GRIP

OT-XXL

12.5" H X 28" W X 11.5" D | **WT: 14 LBS** | **VOL: 2270 IN³** | **MAX PAYLOAD: 50 LBS**
(32cm H X 71cm W X 29cm D) (6.5 KG) (97 L) (23 KG)

The upgraded OT-XXL, "The Beast", back by popular demand, is a "Long Haul" with up to 24.5" (62cm) on the inside for anything from a framing square or 24-inch levels to pipe wrenches, hand saws, framing hammers, flat bars, wrecking bars, portable brakes...you name it. This bag can live in the truck to store the overflow of tools or it can be a dedicated tool bag for the big stuff. CANCEL YOUR GYM MEMBERSHIP!

TF-XXL

14" H X 26" W X 11" D | **WT: 11 LBS** | **VOL: 2900 IN³** | **MAX PAYLOAD: 50 LBS**
(35.5cm H X 66cm W X 28cm D) (5 KG) (47 L) (23 KG)

With 2 horizontal "slick" pockets and a variety of exterior vertical tool pockets, the TF-XXL was designed from the ground-up for the craft of timber framing. With an XXL footprint, the bag can easily accommodate slicks, a framing square, mallets, a 24-inch level and other hand tools often needed to assemble and erect timber framed buildings. With a removable interior tool panel, it works well for any tradesmen requiring an extra large bag for bulk storage.

CT-XL

16" H X 16.5" W X 9.5" D (40.5cm H X 42cm W X 24cm D)

WT: 4 LBS (2 KG)

VOL: 2650 IN³ (43.5 L)

MAX PAYLOAD: 50 LBS (23 KG)

The CT-XL Cargo Tote is designed to stand up to the rigors of daily use, and features 1800 Denier Body Fabric, leather handle grips and Veto's signature 3mm thick polypropylene waterproof base. Our patent pending design keeps this cargo tote bag standing upright and open at all times for easy access, a feature not seen on other totes. With 40% more cargo storage capacity than the CT-LC, it offers the ultimate bulk storage and carrying capacity for larger tools and accessories such as hammer drills, extension cords, boots, sawzalls, air hoses or even your pet lab. An optional shoulder strap is sold separately.

CT-LC

14.5" H X 13.5" W X 9.5" D (37cm H X 34.5cm W X 24cm D)

WT: 3.5 LBS (1.5 KG)

VOL: 1837 IN³ (30 L)

MAX PAYLOAD: 45 LBS (20 KG)

This bag offers bulk carrying capacity with a rugged tote design. The CT-LC allows quick and easy carrying/storage of bulk items from the truck to the job site or anywhere in between. Veto's Cargo Totes feature 1800 Denier Body Fabric, leather handle grips and Veto's signature 3mm thick polypropylene waterproof base. The CT-LC features 4 tiered pockets, and our patent pending design keeps the Cargo Totes standing upright and open at all times; a feature not seen on other tote products for tool storage. An optional shoulder strap is sold separately.

DR-XL

11.5" H X 16.5" W X 9.5" D | **WT: 6 LBS** | **VOL: 985 IN³** | **MAX PAYLOAD: 50 LBS**
(29cm H X 42cm W X 24cm D) (2.5 KG) (16 L) (23 KG)

The DR-XL is a large, versatile, gate-mouth style bag with a padded and removable panel system to secure cordless drills, chargers and their batteries. The outside features a "shop wall" of small vertical pockets to store and access all the small tools and items that normally get lost on the inside bottom. Remove partitions and it will easily convert to "Go To" bulk storage bag for larger tools that are not easily stored vertically in other Veto Pro Pac tool bags. The DR-XL can even double as an "overnighter."

DAVID REED

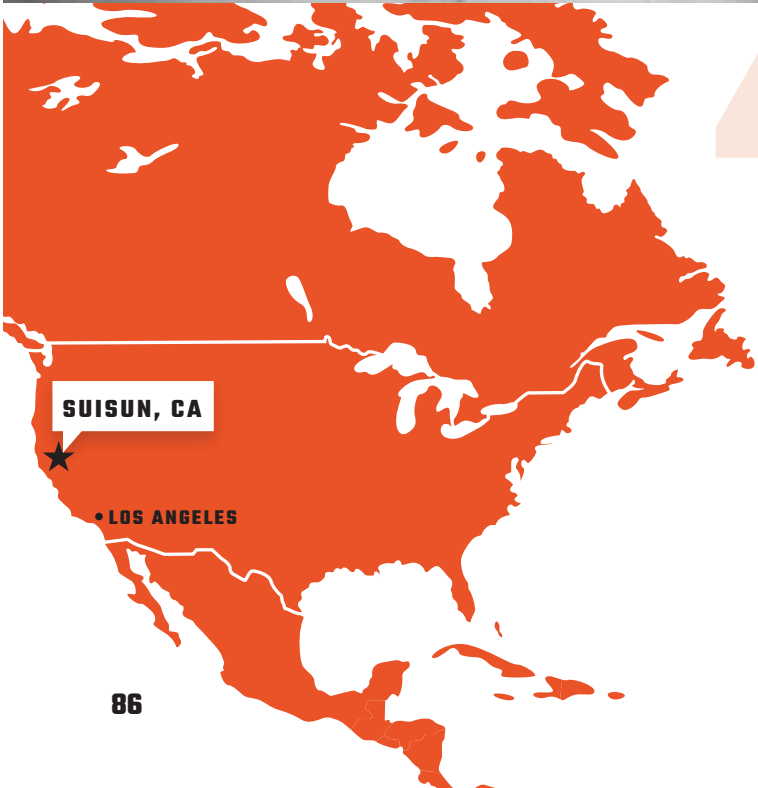

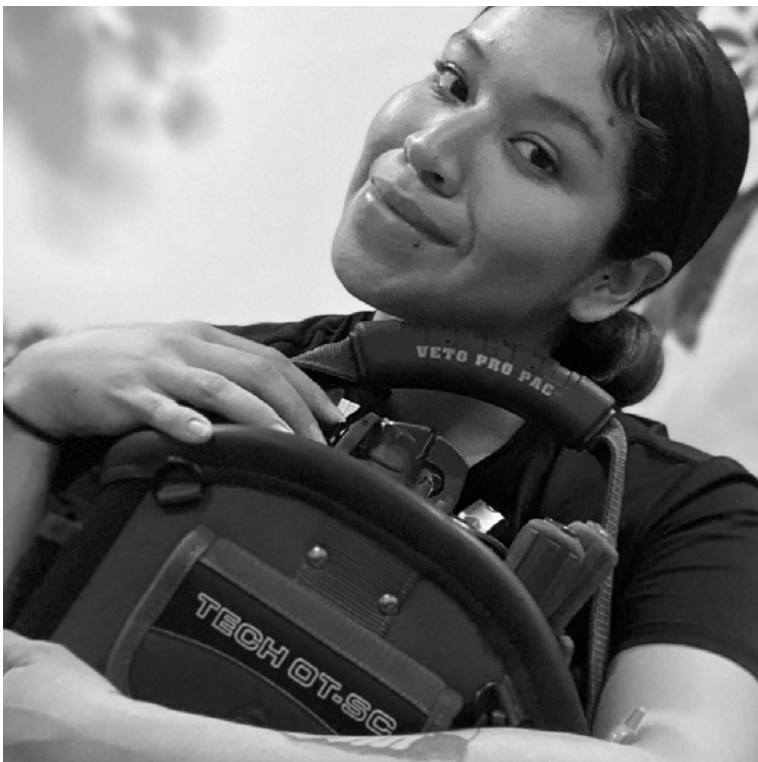

I'VE BEEN IN VARIOUS TRADES FOR 17 YEARS. I LOVE PROBLEM SOLVING AND WORKING WITH MY HANDS. SINCE SWITCHING TO VETO AS MY TOOL STORAGE SOLUTION, IT HAS MADE ME MUCH MORE ORGANIZED, EFFICIENT AND HAPPY AT WORK.

**DAVID REED | ONTARIO, CANADA
FIELD SERVICE TECHNICIAN**

My job title is Field Service Technician. I've been with my company for 7 years. I was hired right out of Fleming College after completing the 2 years EPG program. EPG stands for Electrical Power Generation. It's the only program in Canada and I believe there's one other in the states but it's specific to one OEM. These programs are set to only output roughly 16 graduates every 2 years which puts people in my trade in high demand. Before that, I went to the British Columbia Institute of technology in British Columbia and received a trades certification as a Welder. I then went on to work as a Millwright for roughly 5 years before going back to college at Fleming.

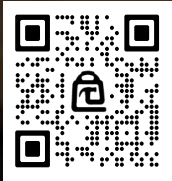

NANCY ESTEFANIA

I ASPIRE TO INSPIRE MORE WOMEN TO JOIN THE TRADES.

**NANCY ESTEFANIA | SUISUN, CALIFORNIA
ELECTRICIAN**

Growing up, I was often told to go to college and get a degree so I wouldn't have to work a labor job. After a couple years of taking courses at my local community college, I decided it wasn't for me and I spent some time waitressing and working some other jobs, all while looking for a new career. I started looking into joining the trades and soon realized how proud I would be of myself if I learned how to do electrical work. So I became an electrical apprentice! Soon to be a certified electrician! I couldn't be happier with my career choice. I now get to train on the job & get paid while I learn. My education is covered through my apprenticeship & the best part is no student loans!

CONTRACTOR SERIES

BELTS, APRONS & ORGANIZERS

Photo Credit: **Jake Hamm**

NEW

BELT LIFTERS (BT-LT)

The Belt Lifters (suspenders), worn on the shoulders, provide a padded harness for the shoulders, with front and back adjustable straps clipped to 4 leather locking straps. Through the leather straps, the harness easily connects to the loaded tool belt, distributing weight off one's hips, sharing the load across the shoulders. It also comes with an adjustable chest strap and 2 metal tape measure clips that are conveniently chest-located on either side of the padded harness for quick and easy tape measure access.

HAMMER HOLDER (HH1)

Our Hammer Holder with belt loop has a stamped metal hammer loop, riveted to tanned cow leather with an additional stitched and riveted leather tool loop, for convenient hammer and tool carrying capability.

BUILDERS BELT

ADJUSTMENT RANGE: 32" - 46" (81cm - 117cm)

The Builders Belt is for carpenters or other tradesmen that need to carry tools and fasteners around their waist. Adjusting from a 32" up to a 46" waist, it includes an adjustable padded belt, a separate Hammer Holder, Fastener Pouch and Tool Pouch. The pouches can be swapped out and worn left or right depending on the dominant hand need. A set of suspenders we call "Belt Lifters" (sold separately) is also available and can be attached and worn over the shoulders to help carry the load off the waist and onto the shoulders for more comfort and less waist fatigue.

TA-XL

22.5" H X 22" W X 3" D (57cm H X 56cm W X 7.5cm D)

WT: 2.5 LBS (1 KG)

MAX PAYLOAD: 15 LBS (7 KG)

The TA-XL Tool Apron is a full chest and waist apron with a cluster of chest pockets and waist pockets for tools and fastenings. With left and right hammer loops and drill loops in the back, plus a double layer of body fabric for fastening pockets, the TA-XL offers extra tool and fastening storage in a tool apron configuration. For those that do not want the weight of a tool belt around their waist and prefer a shop apron configuration supported from the shoulders.

TA-XLBX

22.5" H X 22" W X 3" D (57cm H X 56cm W X 7.5cm D)

WT: 4 LBS (1.5 KG)

MAX PAYLOAD: 15 LBS (7 KG)

The TA-XLBX Tool Apron offers the same pocket configuration as the TA-XL, but with box-shaped pockets in the 2 front pockets that accommodate 3 plastic removable boxes (2 into 1) for differentiating fasteners, screws or wire nuts, etc. The insert boxes also make it easier to empty the contents.

Includes 2 sets of removable plastic storage bins

TA-WB

10" H X 22.5" W X 3" D (25.5cm H X 57cm W X 7.5cm D)

WT: 1.5 LBS (.5 KG)

MAX PAYLOAD: 15 LBS (7 KG)

The TA-WB Waist Tool Apron comes with left and right hammer loops, 2 fastener pouches, a tape measure clip and pocket, and multiple tool, pencil, pen and bit pockets along with a built-in "Gut Bumper" on the top edge. It works well when a minimum amount of tools are required on and off the job. It adjusts for different waist sizes.

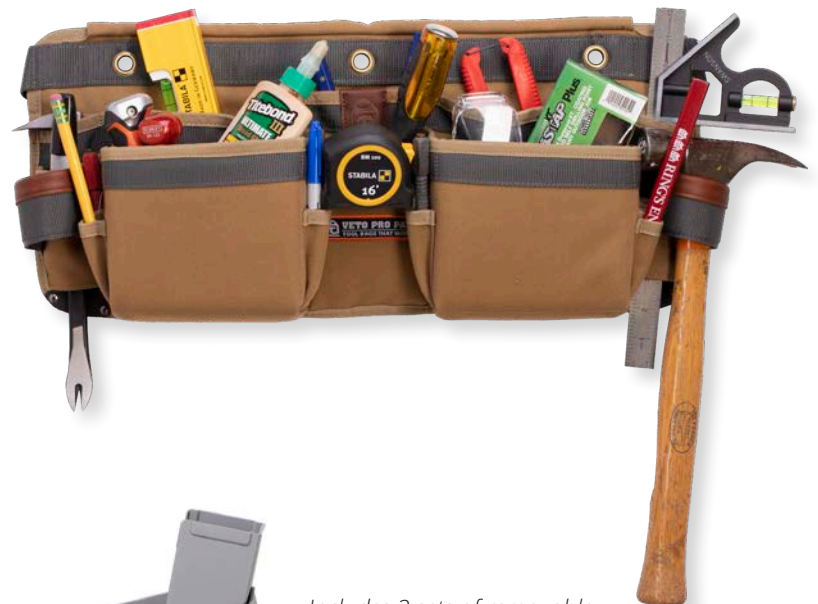

TA-WBX

10" H X 22.5" W X 3" D (25.5cm H X 57cm W X 7.5cm D)

WT: 2.5 LBS (1 KG)

MAX PAYLOAD: 15 LBS (7 KG)

The TA-WBX Waist Tool Apron offers the same pocket layout as the TA-WB, but with box-shaped pockets that each accommodate 3 plastic removable boxes (2 into 1) that fit and help differentiate fasteners, wire nuts, screws, etc. and make it easy to empty contents. This light and compact waist apron configuration works well with a minimum amount of tools and fasteners.

Includes 2 sets of removable plastic storage bins

KP-XL

32" H X 17" W X 3" D (81cm H X 43cm W X 7.5cm D)

WT: 3.5 LBS (1.5 KG)

MAX PAYLOAD: 25 LBS (11 KG)

The KP-XL is a vertical pocket panel for tool storage that can be secured to a hinged vehicle door, cage wall or shop wall to organize and store overflow or additional tools for quick and easy access.

KP-LC

32" H X 13" W X 3" D (81cm H X 33cm W X 7.5cm D)

WT: 3 LBS (1.5 KG)

MAX PAYLOAD: 20 LBS (9 KG)

The KP-LC is a smaller version of the KP-XL, designed to accommodate tools and accessories that secures to truck doors, cages or shop walls.

JUSTIN

MAKE MEMORIES NOT DREAMS.

**JUSTIN | SYDNEY, NSW, AUSTRALIA
HVACR TECHNICIAN**

I've been in the HVACR industry for 15 years. The first 4 years of my trade I was working in the domestic scene and when I came out of my apprenticeship, I went into Commercial/ Industrial HVACR. I absolutely love this trade and the variety of work is awesome. I was first introduced to the Veto bags by a tradesman as a 4th year apprentice. In that short time I had gone through many brands and they just didn't last. The durability, comfort and design of the Veto bags won me over that day and I've never looked back.

MB-MC

12" H X 10" W X 8" D (30.5cm H X 25.5cm W X 20.5cm D)

WT: 4 LBS (2 KG)

VOL: 660 IN³ (11 L)

MAX PAYLOAD: 30 LBS (14 KG)

The MB-MC is a compact service technician tool bag with a non-marring TPR rubber base. It is equivalent to the MC tool bag upgraded with polyester canvas, tan/marine colors, outside pockets, and light gray interior for better visibility, and heavy-duty locking zippers. The bag is designed for tradesmen and technicians to avoid scratching floors or denting door jambs, and boaters or marine technicians who require a compact tool bag with a protective bottom. For power and sailboat owners, the MB-MC is a compact tool bag designed to stow a basic assortment of hand tools.

MB-MCT

13.5" H X 10" W X 8" D (34.5cm H X 25.5cm W X 20.5cm D)

WT: 5 LBS (2.5 KG)

VOL: 800 IN³ (13 L)

MAX PAYLOAD: 35 LBS (16 KG)

The MB-MCT is a compact service technician tool bag with added height for long shank tools. It is equivalent to the TECH MCT tool bag (2" (5cm) taller than the MB-MC) upgraded with polyester canvas, outside pockets, light gray interior for better visibility and with a non-marring TPR rubber base. The bag is designed for tradesmen and technicians to avoid scratching floors or denting door jambs, and boaters or marine technicians who require a compact tool bag that stores hand tools, drills, meters and long shank tools with a protective bottom.

MARINE SERIES

MB-TT

13" H X 16.5" W X 7" D (33cm H X 42cm W X 18cm D)

WT: 7 LBS (3 KG)

VOL: 1450 IN³ (24 L)

MAX PAYLOAD: 40 LBS (18 KG)

With 2 "shop walls" of exterior tool storage, and open access to interior pockets, the MB-TT is a full-featured open tote designed for boat builders, general contractors and tradespeople that need protection from a non-marring bottom and maximum tool storage in a compact configuration. Interior pocket panels can be removed for additional bulk storage capacity and the MB-TT comes with a padded shoulder strap for hands-free carry.

MB-TTXL

13" H X 16.5" W X 9" D (33cm H X 42cm W X 23cm D)

WT: 7.5 LBS (3.5 KG)

VOL: 1870 IN³ (30.5 L)

MAX PAYLOAD: 45 LBS (20 KG)

The MB-TTXL is a 2" (5cm) wider version of the MB-TT designed for boat builders, general contractors and tradespeople that need the protection of a non-marring bottom and maximum tool storage in a compact configuration. Like the MB-TT, this bag also has removable interior pocket panels for additional bulk storage capacity and comes with a padded shoulder strap for hands-free carry.

MB-CTLC

14" H X 13.5" W X 9.5" D (35.5cm H X 34.5cm W X 24cm D)

WT: 3 LBS (1.5 KG)

VOL: 2200 IN³ (36 L)

MAX PAYLOAD: 40 LBS (18 KG)

The MB-CT-LC is an open tote with a zip-up closure option for secure tool storage and one-handed gear hauling to and from the boat... or wherever needed by tradespeople, technicians, contractors, boaters, fisherman, etc... The tote offers interior pockets and a non-marring TPR rubberized base to avoid scratching floors or decks. Great for outdoor weekend use!

MB-CTXL

16" H X 16.5" W X 9.5" D (40.5cm H X 42cm W X 24cm D)

WT: 3.5 LBS (1.5 KG)

VOL: 3050 IN³ (50 L)

MAX PAYLOAD: 50 LBS (23 KG)

The MB-CTXL is a larger version of the MB-CTLC: an open-top tool tote bag with a zip-up closure option for secure tool storage and one-handed gear hauling to and from the boat...or wherever needed by tradesmen. The MB-CTXL also offers interior pockets and a non-marring TPR rubberized base to avoid scratching floors or decks. Great for outdoor weekend use as well!

WT: 3 LBS (1.5 KG)

VOL: 1837 IN³ (30 L)

MAX PAYLOAD: 45 LBS (20 KG)

The MB-OT-LC is a wide-open tote bag for maximum gear hauling capacity or for any one-handed tool storage or hauling need. The tote offers a non-marring TPR rubber base to avoid scratching floors or decks. For tradespeople, technicians, contractors, boaters, fishermen, etc. Great for outdoor weekend use!

MB-OTXL

16" H X 16.5" W X 9.5" D (40.5cm H X 42cm W X 24cm D)

WT: 3.5 LBS (1.5 KG)

VOL: 2650 IN³ (43.5 L)

MAX PAYLOAD: 50 LBS (23 KG)

The MB-OT-XL is a larger version of the MB-OTLC, for maximum gear hauling capacity for fishermen, boaters or tradespeople or for any one-handed hauling need. The tote offers a non-marring TPR rubber base to avoid scratching floors or decks. Great for outdoor weekend use!

RIGGERS BAG

13" H X 11.5" W X 7" D (33cm H X 29cm W X 17cm D)

WT: 6 LBS (2.5 KG)

VOL: 910 IN³ (15 L)

MAX PAYLOAD: 35 LBS (16 KG)

The RIGGERS BAG, with its non-marring TPR rubber base, is designed for professional boat riggers to store, carry, and access rigging tools and gear on the hard or aloft. The bag also works for professionals in other trades, including electricians, to store hand tools and other accessories.

ROPE BAG

17" H X 16.5" W X 9" D (42.5cm H X 42cm W X 23cm D)

WT: 6.5 LBS (3 KG)

VOL: 2800 IN³ (46 L)

MAX PAYLOAD: 50 LBS (23 KG)

The ROPE BAG, with its non-marring TPR rubber base, is an open tote designed to carry coils of rope, rigging tools and related gear. Designed with and for boat riggers to perform various tasks above and below deck, and while aloft, the ROPE BAG also works well for tradespeople who need to bulk carry gear and hand tools.

FH-LC

14" H X 13.5" W X 9.5" D (35.5cm H X 34.5cm W X 24cm D)

WT: 3 LBS (1.5 KG)

VOL: 1837 IN³ (30 L)

MAX PAYLOAD: 45 LBS (20 KG)

This bag offers bulk storage and hauling capacity with a rugged tote design and Veto Pro Pac's classic 3mm thick polypropylene weather and abrasion proof bottom. The FH-LC offers quick and easy carrying of bulk items from the truck to the job site or anywhere in between. An optional shoulder strap is sold separately.

FH-XL

16" H X 16.5" W X 9.5" D (41cm H X 42cm W X 24cm D)

WT: 3.5 LBS (1.5 KG)

VOL: 2650 IN³ (43.5 L)

MAX PAYLOAD: 50 LBS (23 KG)

The FH-XL offers maximum bulk storage and hauling capacity in a tough, stand-up, durable tote configuration. With our signature 3mm polypropylene weather and abrasion proof bottom, the FH-XL is a large utility bag for any fire gear or larger tools and accessories such as hammer drills, extension cords, boots, sawzalls, and air hoses. This bag excels at hauling, storing and organizing fire equipment and gear on the call or off. An optional shoulder strap is sold separately.

HB-LC

14.5" H X 13.5" W X 9.5" D (37cm H X 34.5cm W X 24cm D)

WT: 4.5 LBS (2 KG)

VOL: 1837 IN³ (30 L)

MAX PAYLOAD: 45 LBS (20 KG)

The HB-LC offers ample bulk storage capacity for larger hydrant or plumbing tools and accessories. An optional shoulder strap is sold separately.

HB-XL

16" H X 16.5" W X 9.5" D (41cm H X 42cm W X 24cm D)

WT: 6 LBS (2.5 KG)

VOL: 2650 IN³ (43.5 L)

MAX PAYLOAD: 50 LBS (23 KG)

The HB-XL has 40% more storage capacity than the HB-LC. With 2 wide open storage bays and one with vertical pockets, this bag offers maximum storage capacity for hydrant fittings and tools or for plumbing fittings and tools. An optional shoulder strap is sold separately.

ACCESSORIES & GEAR

GEAR

We offer T-shirts, hats, decals and additional merchandise for personal use on or off the job. This year we are introducing our new "Tried & True" anvil graphic to celebrate our 20th year of bag building.

SPECIAL OPS

COLLECTION

New for 2022, we combined our Blackout & Hi-Viz bags to create the Special Ops collection. All-black construction & black reflective tape (reflects white in color) combined with a minimal amount of bold Hi-Viz yellow accents makes these bags a unique addition to our range of products and colorways. The TECH PAC MC SPECIAL OPS and CP4 SPECIAL OPS offer the bonus of new Hi-Viz parts bags included with the bags for increased versatility and organization for those special operations.

BLACKOUT

COLLECTION

Our Blackout range of bags is growing fast due to the appeal of the exclusive tactical construction, enhanced features, and our proprietary removable V-SWAP™ panel system. New for this year are the TECH-MCT BLACKOUT, TP4B BLACKOUT and TP-XD BLACKOUT.

Most Blackout bags include V-SWAP™ removable and exchangeable tool and meter panels and allow you to add other V-SWAP™ panels available for each model. The Blackout versions of the TECH PAC, TECH PAC MC & TECH-MCT are also available for customization with our Build-Out option - **see page 5 for more information.**

HI-VIZ YELLOW

COLLECTION

The Veto Pro Pac TECH PAC HI-VIZ is a high-quality and professional service backpack with which you leave a lasting impression on all customers. The reflective Hi-Viz material increases safety and visibility in poor lighting conditions, in the boiler room, workshop, as well as in industrial applications. Due to the lack of parking spaces in large cities, I feel safer with the TECH PAC HI-VIZ as a pedestrian in traffic. All in all the best backpack and best quality I've ever had.

HI-VIZ ORANGE

COLLECTION

Der Veto Pro Pac TECH PAC HI-VIZ ist ein hochwertiger und professioneller service rucksack, mit dem sie bei allen kunden einen bleibenden eindruck hinterlassen. Die reflektierende hi-viz farbe erhöht die sicherheit und sichtbarkeit bei schlechten lichtverhältnissen, im heizraum, werkstatt, als auch bei industriellen einsätzen. Durch fehlende arkplätze in großstädten fühle ich mit der TECH PAC HI-VIZ auch als fußgänger im straßenverkehr sicherer. Alles in allem der beste rucksack und beste qualität die ich je hatte.

COLLECTION

Mossy Oak® has grown from its simple beginnings as a camouflage company to the embodiment of the outdoors lifestyle. Since 1986, Mossy Oak has not only provided hunters and outdoors people with effective concealment, but with a symbol of their love of the outdoors in their daily lives. We understand that many of our customers enjoy outdoor activities, and we are proud to offer some of our popular tool bag models in Mossy Oak's® Break-Up Country camo pattern, including the TECH PAC, TECH- MCT, MC, MB2, MB and the CP4.

COLLECTION

Mossy Oak's® first pattern, Original Bottomland, revolutionized camo and for 35+ years Mossy Oak® has continued to innovate in design and effectiveness. Five years ago, Mossy Oak® launched what came to be America's #1 pattern, Break-Up Country. With the understanding that "country is not where you're from, a place you visit, a station on the radio or even a state of mind. It's who you are," Break-Up Country has evolved, and Mossy Oak® introduced their new Country DNA pattern featuring a subtle connection to Mossy Oak's® roots with an Original Bottomland inspired background. Like Mossy Oak®, Veto Pro Pac is focused on bringing the very best in design and innovation, and we are proud to support Mossy Oak's® mission of living an outdoors lifestyle every day of the year, having their hands in the dirt, and raising their families outdoors by offering several Veto Pro Pac bags featuring the new Mossy Oak® Country DNA pattern.

FLEET SALES

Promote your company's name and brand and enhance the pride and professionalism of your employees with our personalization programs. Your employee's Veto Pro Pac tool bag is the first "tool" that a customer sees. A high quality and organized tool bag can communicate a powerful statement to your customers about how much your employee cares about their job. Consider reinforcing your company's brand message of professionalism and quality by affixing your logo to a best-in-class Veto Pro Pac tool bag. Choose from custom patches, ID tags, custom embroidery or even custom colored tool bags (300-unit minimum order quantity). Visit our website to see a complete list of eligible bags or contact sales@vetopropac.com to get started!

EMPLOYEE REWARD

Happy employees are more productive employees. As a professional organization that prides itself on doing high quality work for your customers, employees are your most important assets. The fact is that organizations that give regular thanks to their employees for outstanding service far outperform companies that do not proactively recognize employee efforts. Veto Pro Pac tool bags are a great way to say thank you. Reward your employees with a tool bag that can make them better organized and more efficient while improving the bottom line for your business.

TRADESCHOOL PROGRAM

Start your career with the very best. Make veto pro pac tool storage and organization products part of your trade school and career development journey.

“These bags are the best built tool bags I have ever encountered. The design of the bags is perfect for a tech/student and with such a fine tool bag they will carry themselves with pride as they have already established a great first impression.”
